

CalArk Trucking, 12024 Interstate 30, Little Rock, Arkansas 72210

To whom it may concern:

As Maintenance Director for CalArk Trucking, I have seen the great benefits that Power Up Thixogrease provides us. CalArk Trucking has been using the Power Up Thixogrease for over 3 years now. Using our old grease, we were having an abundance of kingpin and u-joint failures. Since switching to Thixogrease we now grease our trucks every 25,000 miles and have virtually eliminated kingpin and u-joint replacement.

CalArk Trucking currently has 800 trucks and 2000 trailers in our fleet. We are currently using Thixogrease in every place you could possibly apply the product. We have been very excited by the results and cost savings Thixogrease has provided our company. I estimate we have saved over \$10,000 over the past 3 years in parts replacement, labor, and downtime.

If you are a company looking to reduce equipment downtime and repairs, I would recommend Power Up Thixogrease.
