Mr. Douglas Bracken  
Power Up of South Florida  
2800 N. A1A, Suite 103  
Ft. Pierce, FL 34949

Dear Doug;

I would like to express my satisfaction with the results I have seen form your product. To reiterate on the matter, let me explain. Our 1972 100 foot aerial ladder was struggling to pass its annual certification test. During these tests proper performance of the hydraulic system and engine rpm are imperative to pass.

After treating the hydraulic and the engine oils with the oil fortifier, we experienced a 18.98 percent increase in operational speed of this unit. In our profession any increase in performance that we can obtain may mean saving someone's life.

We will be using Power Up Oil Fortifier in the remainder our apparatus, including staff level vehicles.

Sincerely,

A handwritten signature in black ink, appearing to read "James M. Weinand", written over a horizontal line.

James M Weinand,  
Assistant Fire Chief
