To Whom it May Concern:

The Dickinson Public School District #1 Transportation Dept. began using Power-Up approximately 8 months ago. After a pilot program was initiated and Power Up had proven itself to be cost effective, we added it to all our school bus differentials, transmission and engines.

We have experienced approximately an *% gain in fuel economy and hop for extended drive train and engine life. We are pleased with Power-Up thus far in our short period of use.

Respectfully,

A handwritten signature in black ink, appearing to read "Richard Rykowsky", with a long horizontal flourish extending to the right.

Richard Rykowsky, Transportation Supervisor
Dickinson Public School Dist. #1
